## Who is Envision?

Envision provides academic programs in numerous categories, including STEM, medicine, law, government and leadership, business administration, entrepreneurialism, culinary arts, engineering, and aerospace. Programs are typically held during summer (May-August) in many cities across the United States as well as China, Australia, South Africa, and New Zealand.

Envision's programs are developed by educators and subject-matter professionals and are accredited by the International Association for Continuing Education and Training (IACET) and the Southern Association of Colleges and Schools Council on Accreditation and School Improvement (SACS CASI).

Using innovative tools and techniques, our activities mirror real-world challenges and facilitate critical thinking and communication among the groups. Envision advisors are trained teachers and subject-matter experts who love making a real impact—so much so that they come back year after year. To date, over 800,000 exceptional students have benefited from the transformational experiences Envision programs provide.

Envision programs are innovative, safe, fun, empowering, and enable students to:

Discover Their Passion

Explore a Career

Realize Their Dreams

## What is NYLF Advanced Medicine & Health Care?

The National Youth Leadership Forum (NYLF): Advanced Medicine & Health Care provides an opportunity for high-achieving high school students with a passion for medicine to receive a hands-on medical experience that will help fuel their goals of becoming future doctors and health care practitioners.

The program is hosted on the campus of the prestigious Johns Hopkins University, where students have the opportunity to experience college life firsthand through campus tours, dining in campus commons, and staying in the dormitories. While at the program, students enjoy ten days of Apprentice Doctor™ workshops, interactive curriculum, medical site visits, and hands-on medical training. The students are able to step into the life of an edical practitioner by performing medical procedures such as a fracture reduction of a long bone through state-of-the-art virtual reality simulations. During this time, students will also visit the University of Maryland (UMD) School of Medicine's Gross Anatomy Lab, in addition to taking a guided visit of the R Adams Cowley Shock Trauma Center.

## Why should I or my child attend this program?

It is no secret that the world is changing. Due to rapid advancements in technology and automation, the jobs of yesterday are no longer the jobs of today, and the jobs of today are unlikely to be the jobs of tomorrow.

We are already seeing the educational impact of this technological shift. While diplomas and degrees served their holders so well in the past, more and more they are being seen as insufficient by many employers. More than ever, it is essential that students gain tangible skills that set them apart from their peers; the kind of life-ready skills that can't be automated.

Founded on a 21st-century curriculum and learning techniques, NYLF Advanced Medicine & Health Care provides students with hands-on learning opportunities in a college environment that challenge them to think in new ways and helps them establish and grow essential skills that will allow them to succeed in our ever-evolving world, all in an engaging and exhilarating atmosphere.

"Maggie has known she wants to pursue medicine and having the hands-on experience has confirmed that for her and motivated her to work even harder in school and formulate her plan to make her dream a reality. Her experience at this and last year's camp at U of Maryland has really inspired her and built her self-confidence."

- Molly H, Mother of NYLF Advanced Medicine & Health Care Alumna

"The part of the program that had the biggest impact on me was being able to visit the different hospitals (University of Maryland, Johns Hopkins) and being able to learn concepts that are key to pursuing a job in the medical field. These concepts include patient encounters, sutures, and learning what the environment of a hospital is really like."

- Hallie K, Alumna of NYLF Advanced Medicine & Health Care

## How much does it cost to attend NYLF Advanced Medicine & Health Care?

A number of factors determine the pricing of our programs, including location, length of program, and complexity of curriculum. For NYLF Advanced Medicine & Health Care, tuition starts at \$3,845, and we have payment plans available. More information on the cost of attending the program can be found at [NYLFadvmed.com/info](https://www.NYLFadvmed.com/info)

To ensure that more students have the opportunity to attend our programs, Envision does offer a limited number of scholarships based on financial need, scholastic merit, and leadership achievement. Submission of a scholarship application is required to be considered for an award.
