Who is Envision?

Envision provides academic programs in numerous categories, including STEM, medicine, law, government and leadership, business administration, entrepreneurialism, culinary arts, engineering, and aerospace. Programs are typically held during summer (May-August) in many cities across the United States as well as China, Australia, South Africa, and New Zealand.

Envision's programs are developed by educators and subject-matter professionals and are accredited by the International Association for Continuing Education and Training (IACET) and the Southern Association of Colleges and Schools Council on Accreditation and School Improvement (SACS CASI).

Using innovative tools and techniques, our activities mirror real-world challenges and facilitate critical thinking and communication among the groups. Envision advisors are trained teachers and subject-matter experts who love making a real impact—so much so that they come back year after year. To date, over 800,000 exceptional students have benefited from the transformational experiences Envision programs provide.

Envision programs are innovative, safe, fun, empowering, and enable students to to:

Discover Their Passion

Explore a Career

Realize Their Dreams

More information about Envision can be found at EnvisionExperience.com

What is NYLF Medicine?

The National Youth Leadership Forum (NYLF): Medicine provides an opportunity for high-aspiring high school students with a passion for medicine to receive a hands-on medical experience that will help fuel their goals of becoming future doctors and health care practitioners.

Sessions are held in nine U.S. cities chosen for their acclaimed medical institutions and schools. While at the program, students enjoy nine days of engaging seminars and keynotes, interactive curriculum, medical site visits, and hands-on medical training. The students are able to truly step into the life of a medical practitioner through firsthand experience with medical procedures such as suturing, taking blood pressure, and performing neurological exams. During this time, students will also be visiting and training in the same medical simulation centers that med students, residents, and physicians do, using the latest technology with the guidance of experts.

Why should I or my child attend this program?

It is no secret that the world is changing. Due to rapid advancements in technology and automation, the jobs of yesterday are no longer the jobs of today, and the jobs of today are unlikely to be the jobs of tomorrow.

We are already seeing the educational impact of this technological shift. While diplomas and degrees served their holders so well in the past, more and more they are being seen as insufficient by many employers. More than ever, it is essential that students gain tangible skills that set them apart from their peers; the kind of life-ready skills that can't be automated.

Founded on a 21st-century curriculum and learning techniques, NYLF Medicine provides students with hands-on learning opportunities that challenge them to think in new ways and helps them establish and grow essential skills that will allow them to succeed in our ever-evolving world, all in an engaging and exhilarating atmosphere.

“Sadie was exposed to areas of medicine that she was unaware of prior to the program. She thoroughly enjoyed all of the hands-on experiences she had. By attending your program, Sadie has been insured that she definitely wants to enter the medical field for college.”

- Jennifer P, Mother of NYLF Medicine Alumna

“My favorite parts of the program were definitely anything that required hands-on action. I learned the most by participating in these types of activities, and they were a lot of fun. I also like that we were given a lot of information about the medical field and steps for entering it. They have really helped me, and I will put the information I received to use when it comes time.”

- Precious A, Alumna of NYLF Medicine

How much does it cost to attend NYLF Medicine?

A number of factors determine the pricing of our programs, including location, length of program, and complexity of curriculum. For NYLF Medicine, tuition starts at \$3,495, and we have payment plans available. More information on the cost of attending the program can be found at NYLFmed.com/info

To ensure that more students have the opportunity to attend our programs, Envision does offer a limited number of scholarships based on financial need, scholastic merit, and leadership achievement. Submission of a scholarship application is required to be considered for an award.
